Dear Regulatory Agencies:

The Navy survey unit data reviews are still your top priority (especially D-2 and UC's that you just received) but on those days when you need a break from all that – we have the solution:

Your improved RMP! – streamlined and succinct explanations in a logical order (thanks to Colin, Elaine, Jessica and Randy)

Please check out the annotated redline and the RTC redline

We're hoping you can review the redlines and be prepared to chat about any remaining questions at our December 6 meeting – but let us know.

Attached are the final revised draft RMP docs:

- Complete RMP PDF package with redlined edits and annotations mostly in the main text and Appendix C (environmental conditions) to indicate changes that have occurred due to restructuring and streamlining. The comparison is to the last version you received in April 2017.
- RTC table in redline (comparison is to the April 2017 table)
- Table summarizing the restructuring of the RMP
- PDF of clean, non-redlined document

I'll be on leave Nov 20 - 22 and December 22 - 29

sincerely,

Amy Brownell, P.E.
